CIRC. 140 NO. 11

JULY 1943.

THE WAR AFTER 19 MONTHS

Let us look at the war. 19 months after Pearl Harbor, We now have nearly nine millien men in our armed forces. Nearly two million of these are over seas. We are making 7.500 planes a month. More than 600 of these are big bombers. So that in both numbers of planes and in their quality, as well as in the quality of their crews, we have far outrun the Axis.

Our Navy is stronger than it was before Pearl Harbor. We are winning the Battle of the Atlantic.

The war with Germany is complicated. On the one hand, we are striking Germany through the air with such force that there is talk knocking Germany out through the air alone. On the other hand, Germany has nearly two million men ringing coast from Norway to the

Balkans ready for our invasion. The most significant factor in the picture at present, is the new invasion of Russia. It is too early to discern the full meaning of this invasion or to predict the outcome. This much is clear: Hitler knows that to win the war he must knock Russia out and open new roads to vast resources of materials or, if Germany cannot break through the steel ring around her, she has lost the war.

As to Italy, but little needs to be said. She is taking a terrible pounding from the air. Only the passing of the weeks will reveal whether or not this means the invasion of Italy this summer.

As to Japan, she is consolidating her vast empire. She has won her war. We will win it back. what cost?

EXTRA

INVASION OF SICILY

ALLIED HEADQUARTERS, NORTH AFRICA, July 13th Allied armies are advancing steadily in Steily. This invasion is now nearly four days old. Our troops have proved that they can land on hostile shores, can overcome all resistance, and can beat off the enemies ' strongest counter-attacks. If we can do these things in one area, we can also in other areas. So we are on the march to victory. The cost will be great, but victory is assured.

THE BATTLE OF WASHINGTON

We have had various battles. We have lost many. We are now winning on most fronts.

Except - the Battle of Washington! In this battle one wonders if anyone is winning. Certainly the Axis are being favored. And the people of the U.S. are losing. Political ambition, selfishness, muddle-headedness, and bureaucracy are everywhere manifest. This battle is being fought on the economic front, with food prices and production, inflation, and labor. Wallace is fighting Jones rogarding the war effort. Congress is fighting Roosevelt over subsidies. Louis is fighting for himself. One wonders if anyone will win this battle until-1944.

A LOOK AT THE FUTURE

A twin-engine Douglas C-47 transport towed a freight loaded glider of 12 ton capacity 3,500 Miles in 28 hours. It was loaded with vaccine for Russia, and with radio. aircraft, and motor parts. The glider started from Montreal. We may be sure that the glider has come to stay in war and peace.

PLEDGE OF ALLEGIANCE

"I pledge allegiance, to the flag, of the United States of America; and to the republic for which it stands, one nation, indivisible, with liberty, and justice, for all."

THE AMERICAN'S CREED

"I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed: a democracy within a republic; a sovereign of many sovereign States; a perfect Union, one and inseperable: established upon those principals of freedam, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

"I therefore believe it is my duty to my country to love it; to support its Constitution; to obey its laws; to respect its flag; and defend it against all enemies."

BAS EBALL Major Leagues

The Phillies have been playing around fourth place since the beginning of the seasom - with a few ups and downs. Just now they are in fifth place after losing a pair of games to the Dodgers on Sunday, June 27th.

The Athletics were in fourth place up until their six game series with the Boston Red Sox. They lost five games and drepped to seventh, where they now stand.

The St. Louis Cards have gone into first place in the National League, and the Yankees have taken it in the American.

BUY WAR BONDS & STAMPS -4EDITORIAL - Is This Soldier Right?

On a recent train ride, a group of people (standing) were being heaped upon Louis and the coal miners. A well behaved soldier stood listening. Then he stepped forward and asked, "How many of you ever dug coal?" Not a one responded. The soldier in a quiet manner said about as follows: "I have dug coal since I was about 14 years of age. I know of no miners making eight dollars in four hours, as one of you said miners were making. Most miners trade at company stores where they pay what ever prices the company wishes to charge. And believe me, they pay plenty. Most miners have large families. Many times heads of families have to borrow money to pay what they owe. Miners furnish most of their working tools, They walk from the entrance to the mine to the place of work, sometimes a distance of four miles. For this they get no pay. They know the operators are making lots of money. Every minor will make any sacrifice to help the country, but not to make the employer rich."

Game - Jumble Words

Kit is usually so highbrow that she frightens us, but the light of her learning is dim at times -- particularly when we play Jumble Words. We get mean pleasure out of watching her flounder. We may not be brilliant at this time, but neither is she!

Each person takes a sentence, simple or complicated, according to the group, and jumbles the words on a piece of paper, passing it on to his neighbor who must reassemble the words to make the original sentence. If there is punctuation in the sentence, even after it is jumbled, the commas, semicolons, etc., must follow their original words, and capitals remain capitals wherever placed in the jumble.

A paper is received with this mess of words:

"soil. of sweetpotatoes, have certain peanuts, annuals and sandy must kinds" Extricated it reads:

"Peanuts, sweetpotatoes, and certain kinds of annuals must have sandy soil." Or this group:

"wear girls passes seldom glasses. at who make Lads"

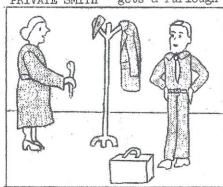

Becomes:

"Lads seldom make passes at girls who wear glasses."

Try this one yourself:

"on heat, we insects. the plodded, On, to dirt and the oblivious"

PRIVATE SMITH - gets a furlough

Mom: How did you find the weather up at camp? Pri. Smith: Just went outside, and there it was.

Of all the sad suprises, There's nothing to compare, With treading in the darkness . On a step that isn't there.

"It takes 25 girls behind typewriters to put one man behind the trigger in this war," solemnly proclaims a mathematical shark in the Office of War Information, in bolstering his request for more typewriters from private business. With an army of 7,500,000 by the end of next year, we shall need 187,500,000 girls pounding government typewriters which is pretty good going for a nation of 130,-000,000.

As the world grows more civilized, we keep right on improving padlocks.

"If you sit on a tack, what is it a sign

"I don't know, what?" "An early spring."
